

Product sheet

**M2-10B4 | 400428**

**General Information**

**Description** M2-10B4 is a mouse cell line derived from a hybrid of C57BL/6J X C3H/HeJ (C57BL/6J X C3H/HeJ)F1. M2-10B4 is a fibroblast cell line, established from the peritoneal cavity of a mouse. M2-10B4 is a fibroblast cell line, established from the peritoneal cavity of a mouse. M2-10B4 is a fibroblast cell line, established from the peritoneal cavity of a mouse.

**Organism** Mus musculus

**Tissue** Fibroblast

**Synonyms** M210B4

**Genetic Information**

**Breed/Subspecies** C57BL/6J x C3H/HeJ

**Age** 12-14 weeks

**Gender** Male

**Morphology** Fibroblast

**Cell type** Fibroblast

**Growth properties** Adherent

**Identification**

**Citation** M2-10B4 (M2-10B4 Cytion 400428)

**Biosafety level** 1

**NCBI\_TaxID** 10090

**CellosaurusAccession** CVCL\_5794

**Additional Information**
