

UM-SCC-122 | 305721

General information

|              |                                                                      |
|--------------|----------------------------------------------------------------------|
| Description  | UM-SCC-122 (HNSCC) UM-SCC panel) HNSCC<br>UM-SCC-122 HNSCC EGFR PI3K |
| Organism     |                                                                      |
| Tissue       | ,                                                                    |
| Disease      | (HNSCC)                                                              |
| Applications | HNSCC; , , EGFR/PI3K; panel UM-SCC;                                  |

Characteristics

|                   |    |
|-------------------|----|
| Age               | 63 |
| Gender            |    |
| Ethnicity         |    |
| Morphology        |    |
| Cell type         |    |
| Growth properties |    |

Additional information

|                 |                            |
